The Ø-Beat is published monthly in the interest of the members of the Pikes Peak Radio Amateur Association, Inc., PO Box 16521, Colorado Springs, Colorado 80935. For membership and subscription information see the last page of this publication. Monthly advertising rates: Full page, \$48; Half page, \$24; Quarter page, \$12; Business card, \$6. These rates are billed quarterly. Send your ad requests and payments to: PPRAA, PO Box 16521, Colorado Springs, Colorado 80935.

Check out the PPRAA page on the World Wide Web! Go to: <http://www.qsl.net/ppraa>

Deadline for submission of articles or advertisements is the 20th of each month. Submissions are accepted in any form. Articles should be sent directly to the Ø-Beat Editor (email to kdøju-1@juno.com is preferred.) Permission is granted to reprint articles provided credit is given to both the author and this publication.

License Exams

License examinations sponsored by the Pikes Peak Radio Amateur Association are held on the 2nd Saturday of February, April, June, August, October, and December.

Testing takes place at 9 A.M. at:

Denver Technical College
225 South Union
Colorado Springs

Everyone is seated on a walk-in basis. Those wishing to take an exam should bring the following items:

1. \$6.25 (preferably a check/money order made out to ARRL/VEC) for any exam other than element 1A or 2.
 2. Picture identification.
 3. A copy of your current amateur radio license, and/or a copy of any examination credit you have, as well as the signed original. **We keep the copies.**
 4. A pen, pencils, and a calculator if you need one.
- If you have any questions, call Erik Mugele, KGØXE at 596-5345. Please do not call Denver Technical College.

Reminder — General Membership Meeting

The next General Membership Meeting of the Pikes Peak Radio Amateur Association will be on the second Wednesday of this month at the Mt. Calvary Lutheran Church, 1318 N. Circle Dr., Colorado Springs, CO 80909. The meeting will start at 7 PM.

Zero Beat

PPRAA General Membership Meeting Minutes June 11, 1997

General Meeting Minutes, 11-Jun-1997

The meeting began at 1904. Following the introductions and welcoming the newest club members, the treasurer's report was read. The minutes from last meeting were accepted as amended. The amendment was a correction to Mel Hosea's callsign: it should be W3TMR. Committee reports were given.

Assets: Mike K0TER reported the club's triband antenna is missing. Please contact Mike or John Herring K06TN if you have any information which will help locate it. It was probably last seen at the Tesla Society in July 96 at the Tesla Society's symposium. One of our generator's was likely stolen during a burglary at Harry N0SFP's home. Jeff N0JLH will contact Harry to get a copy of the police report. Mike later suggested we consider the ARRL insurance to insure club property. **Public service:** Mike needs volunteers to sign up for the Pikes Peak Int'l Hill Climb for July 4.

Field Day: Field Day is 28/29 Jun at the Hewlett-Packard campground, north of Woodland Park. Mike's asking those with military connections so see about borrowing a medium or large tent for Field Day, as we've used in the past. There is NO VHF/UHF station coordinator, meaning there will be no VHF/UHF station, unless someone volunteers. Volunteers, anyone? In general if you're coordinating a station, you need to coordinate the tent or trailer you'll use, as well as power, transceivers, antennas, etc. In the past we've used several Scamp trailers from the USAFA, quite convenient since our FD site was at the USAFA FamCamp. If we got some Scamps this year, though, someone would have to haul them up to Woodland Park. Any takers? Mike will coordinate the HF CW station, and he's looking forward to Doug Shock AA0UF participating this year. Doug can do about warp 9 on CW!

Campers and motor homes are allowed, just let Mike know about it in advance so he can plan the sites. What about food, you ask? Pete Petry WD4DHR (522-0429) is our Sunday morning cook, and is looking for some help and also for some grills, propane, etc. Pete's done cooking for the Scouts in CA. Saturday evening dinner will be provided by the Mountain Amateur Radio Club, our co-host. Rosie WA0MNL asked about coffee, stating we didn't have any last year at the hospitality tent. Les KC0NC offered a 7 gal coffee maker that could be used if we can get power to it. John K06TN is coordinating the HF SSB station; See John to sign up for that station. Ron NK0P could loan an RS antenna in lieu of the missing tribander. Also, see Tom (Mr AMSAT) N0NTX if you want to sign up to work the satellite station. Jack Wood KB0LWE offered up a 5kW generator if needed.

Other committee reports: CCARC: no report from Ron NK0P. **Interference:** Bill N0NJX reported some interference during a recent Skywarn net. He speculates it was an open mic that timed out the repeater, rather than intentional interference. If you have any comments (i.e., if you were the one that had the open mic) he'd like to hear from you. **Membership:** Les KC0NC noted the roster that should be printed twice yearly is long overdue and will appear in the July 0-Beat. He's leaving out the directors' addresses; you can contact any director via phone or e-mail. Currently he reports 105 full, 26 family, 29 senior and 9 senior family members, for 169 total. Les also noted that a couple of members reported not getting their 0-Beat. The PPRAA doesn't send out reminders, so please check your expiration date on the mailing label, and please give us your correct address. **Technical Instruction:** no report from Linda KB0RKW.

Old business: Secretary election. Ron Deutsch NK0P was nominated and elected to Secretary. His term as secretary will end in Oct 97, and his term on the board will end in Oct 98.

501(c)(3): Discussion continued as to whether or not we should consider tax exempt status. Rob WB7WHT mentioned that if the club was to proceed with the application, there would have to be others in the club helping. This is not a one-person job, and Rob will not do it alone. Doug WB0MHP distributed a paper describing reasons (primarily our poor asset management) why we should not consider this status. John KB0VGX agreed that we have accountability problems, but saw the accountability problem as a separate issue from the tax exempt issue. Jeff N0WPA also noted that there's a lot of work to this, and he doesn't believe the club is currently active enough to support the required work. Many other people had many pro and con comments. The discussion began to run into the planned program on traffic handling. A motion was made and carried to table further discussion until next month. There was a general consensus that we still needed more information, and many people would be interested in hearing from someone that had experience. It was suggested that we try to get Marshall Quiat AG0X to talk to our club about this tax status.

Hammy was presented by Carlos KB0REI to Rosie WA0MNL for all her work on the recent hamfest, and the previous hamfest, and the one before that (you get the picture). Carlos felt the Hammy needed a woman's name, so he decided to name the current version "Rosie archetjaw".

At about 2000, the remainder of business was tabled until after the traffic handling program, which was scheduled to coincide with the 2000 So Colorado Traffic Net. (At this point WB7WHT, who was recording the minutes, had to leave.) N0JLH reported the meeting ended promptly after the traffic net, with no further business being discussed.

(submitted by WB7WHT)

Pikes Peak Radio Amateur Association

Last Minute Ham Class Gets Underway

by WB7WHT

Partially as a result of the SAREX/Mir work being done by the club, and partially as a result of me visiting a Space Week at West Middle School (mentioned by Jeannie George at a previous club meeting) we set up a special class for teachers and students from West. During the visit to the West Space Week I learned that the teachers and staff there are VERY interested in NASA and its educational programs. They've gone so far as sending many of their staff to NASA educational training classes and have even picked up much scrap material from NASA, including everything needed to build a space shuttle simulator, complete with console and simulated flight deck. Their goal is to get all this equipment working and ultimately install a VHF/UHF amateur radio station in the flight deck to allow the students to speak with the astronauts. To this end, they cornered me at my visit to find out what it takes to get an amateur radio station at their school.

The first step is for some of them to get an amateur license. Based on about 6 teachers being interested in getting their license, Frank McNally agreed to teach a special session this summer (normally Frank doesn't teach during the summer) which began June 17. Now, this is a little late for most of the club members to do anything about, but we are giving you plenty of notice that there will be a VE test session on July 17 at QTE Government Systems, 1450 Academy Park Loop, at 1830. Talk-in will be on the 146.625 Colorado Springs Amateur Radio Assn repeater. As usual, contact Erik Mugele KG0XE for information. The test will include the new test questions related to RF safety, so if you plan to take a novice or technician test, be prepared. The next regular test session will be on August 9.

We didn't get the turnout we expected from West, but some from West did show. Summer, and other alternate plans

of the teachers got in the way. But through some word-of-mouth advertising we did manage to fill a few more seats and make it worth everyone's while. Although I don't believe it was mentioned at the club meeting, Jeff Boyes, our president, recently set up an automated list server for those with e-mail. That e-mail list contributed immensely to our ability to notify as many club members as possible on short notice. I presume that Jeff will write a short article about it and how it works. Contact Jeff if you have any questions on that.

PPRAA Board of Directors Meeting Minutes

June 16, 1997

The June PPRAA Board meeting convened at 7:12 PM at Aaron's home. The following members and guests were present: WB7WHT, WD4DHR, KA0ROZ, KA0ROY, N0JLH, NK0P, KC0NC, KB0SXC, WA0OOD, and KD6FLM.

Pete led a discussion of ways to revitalize the club and gain the interest of both new and old members. Aaron, Greg and Pete will work on a way to have a club WAS, WAC via club member QSL cards. Motion was made and seconded to a lot up to \$100 to set this up. Details at the next club meeting.

Aaron discussed programs. He will try to have an old timers night next month with displays of vintage equipment.

Motion was made and seconded to offer the clubs adjustable trailer ball mount to ARES for \$50.

Motion was made and seconded to donate the trailer wiring harness to ARES.

K0TER will store the contents of the club trailer at his QTH.

Jody, KA0ROZ was appointed club Historian.

Rob, WB7WHT got new tags for the trailer. (No cost to the club)

Motion was made and seconded to renew trailer liability insurance for one year. (\$22.00)

The new PPRAA e-mail account has been set up. The address is PRAAnet@QSL.net. A message sent here will go to all PPRAA members who sign up. (Jeff, N0JLH)

Rob is starting a Novice-Tech class tomorrow night, it will run for 5 weeks.

Jeff will check with Harry to determine if a police report was made out for the club generator that is missing.

The Board discussed buying a new generator but this was determined unnecessary at this time.

Les discussed publishing the names of members whose membership is expiring as a reminder.

Motion was made and seconded to allow up to \$200 for the club picnic. NK0P will organize it this year. KA0ROY will publish an article and map in a future O-Beat. The Picnic will be at the USAFA Picnic area #3, on Sunday August 17th.

Motion was made and seconded to give \$25 to KA0ROY to start a coffee fund at the club meetings. Donations should make it self supporting for future meetings.

The Board discussed the possibility of raising membership dues to cover an expected increase in postage later this year. This was tabled until it is clear what the USPS will do.

The Board discussed the use of Proxy votes. Jeff will research this in Robert's Rules Book.

Greg discussed ways of holding club members responsible for club equipment in their possession. Aaron is working on a form letter to help keep track of who has equipment.

All motions passed unanimously. The meeting adjourned at 8:53 PM.

Submitted by Ron, NK0P
Club Secretary

Zero Beat

PPRAA Treasurer's Report Period Ending May 31, 1997

For the general fund:

Income - Expenses = Net Income/(Loss)
\$3,777.00 - \$1,126.34 = \$2,650.66

Contact me for a more detailed report. I also have a detailed report available on the hamfest income/expenses. Let me know if you want a copy of that. I can e-mail it or call you on the telephone. The large numbers for the month of May include income and expenses from the swapfest.

501(c)(3): Most of the latest information appears in the 11-Jun-97 general minutes. There was no action taken at the meeting, and it appears that we really aren't at a point to decide whether or not to apply for this tax exempt status. Although some seemed to lean for and some seemed to lean against, I believe the one though common to all present was that we didn't really know enough to decide. I agree, especially since I have always stated that I've never taken on a task quite like this before, and my knowledge of this tax exempt status is based on what I've read or heard from others. So, I'll attempt to find a speaker for an upcoming meeting to shed some light on this difficult subject.

Other: The transfer of title of the trailer from the PPRAA to ARES is still a few days from happening, but the insurance on the trailer won't wait. So I've renewed the insurance, with the understanding that when the title transfer does take place, the insurance contract can be cancelled and we will receive a refund for the unused portion. ARES will then have to get their own insurance with the same agent or with another agent of their preference.

COUNTY OEM ACTIVATES RACES

June 20, 1997
by Bryan Curl (N0LUF)

Typically June brings some of Colorado's most interesting, and dangerous weather and the weekend of June 7th and 8th was no different. A strong flow of moisture from the southwest coast settled in with up slope conditions and the areas drainage's were tested to beyond their limits. Before June, Colorado was below it's yearly average for rainfall. By the time this and several other systems moved out we were closer to double our annual amounts.

At approximately 7:45 AM, June 10, 1997, I received a call from Jim Mesite, one of the counties emergency coordinators, that the Office of Emergency Management (OEM) had opened as an Emergency Communication Center (ECC). He requested six volunteers from RACES with HT's and the ability to work in extreme wet weather to provide support of that activity.

A, backup, radio communication link was established with Fort Carson to assist in the acquisition of equipment and other

resources. The county Fire Marshall, City of Colorado Springs Emergency Director, Manitou Springs Fire Chief, and a representative of the US Army Core of Engineers were all assigned a volunteer to shadow them throughout the day. These volunteers passed damage assessment reports back to the county OEM. The reports are received at the Amateur Radio Communication console and delivered to the appropriate agency within the OEM for action as required. In spite of the communications technology already available to these officials, the hands free ability to pass traffic proved very useful to them. One volunteer took video of some of the damage and relief efforts and that footage has been already been used by the county in training and emergency awareness presentations.

Activation officially lasted 7 hours for a total of 50 man-hours of RACES volunteer work. Participants included Don Fuhs (ke0cq), Wayne Stevens (n0isv), Jeff Ryan (n0wpa), Steve Bates (n0mhq), Jake Jacobs (n0cyr), John Roth (n0qjs).

RACES provides communication-related services not only to El Paso County, but any governmental agency that requests our services. To date, RACES has been by such agencies as El Paso County Search & Rescue, Green Mountain Falls, Manitou Springs, Fountain, Security, and several County Fire Districts.

If you would like information about how to become involved in a valuable public service by volunteering in RACES, contact the El Paso County Office of Emergency Management.

Editor's Note Pete Petry, WD4DHR

Due to the necessity of printing the Club roster I had to cut a nicely done article about a visit to the ARRL by KO6TN. My apologies. Please look for this in an upcoming issue of 0-Beat.

Thanks for letting me be editor for a day. I had fun and frustration doing the newsletter. This, of course, is the natural order of things. I would like to pass on the one thing I learned. E-mail is a wonderful thing, kind of like the automobile. It would pay us all to take a few spins around the block whenever we get a new "brand" of e-mail provider--just to make sure that it really works as advertised-- 'Nuff said.

I would like to thank everyone who submitted articles, re-sent e-mail, provided diskettes and proofreading suggestions.
